

Providing Financial Services Apprenticeships

This Apprenticeship is about developing a career in the banking and services sector. There are more than 60 million people in Britain, and most of them have at least one bank account. Lots of these people will also have loans, mortgages, insurance policies and credit cards, which result in thousands of transactions happening every minute.

You are now working for one of the most recognised banking organisations in the world. This qualification has been designed to support individuals looking to pursue a career in the banking sector. Having complete the Level 2 in Customer Service or Business Administration you have the base knowledge to now focus on qualifications specific to the sector you are working in.

The qualification will help develop your skills in a financial services environment and follow important regulations. Every day you'll encounter customers and numbers, so you'll need good customer-facing skills and a head for maths as well as excellent communication skills. The experience and skills you gain will serve you well in many areas of business and potentially open other opportunities within the organisation you are working in.
